

LEMING LAKE SALES LATERAL LOOP

NOVA Gas Transmission Ltd. (NGTL), a wholly owned subsidiary of TransCanada Pipelines Limited, an affiliate of TC Energy Corporation, is in the process of developing for a natural gas pipeline expansion project in northern Alberta on its NGTL System to support the transportation of natural gas to growing domestic markets in Alberta. The proposed Leming Lake Sales Lateral Loop (Field Lake Section) Project (“Project”) is necessary to increase natural gas transportation to meet growing demand. NGTL anticipates filing an application with the Canada Energy Regulator (CER) under Section 214 of the Canadian Energy Regulator Act in Q1 2024, with a commercial in-service date in Q2 2026.

NPS 20 Field Lake Section

The proposed Field Lake Section consists of approximately 17 kilometers (km) of 20-inch diameter (NPS 20) pipeline originating at the Field Lake Compressor Station approximately 8 km east of Lac La Biche, AB at NE-6-67-12-W4M, and ending at a proposed valve site at SW-8-66-11-W4M within Lac La Biche County.

Anticipated Schedule

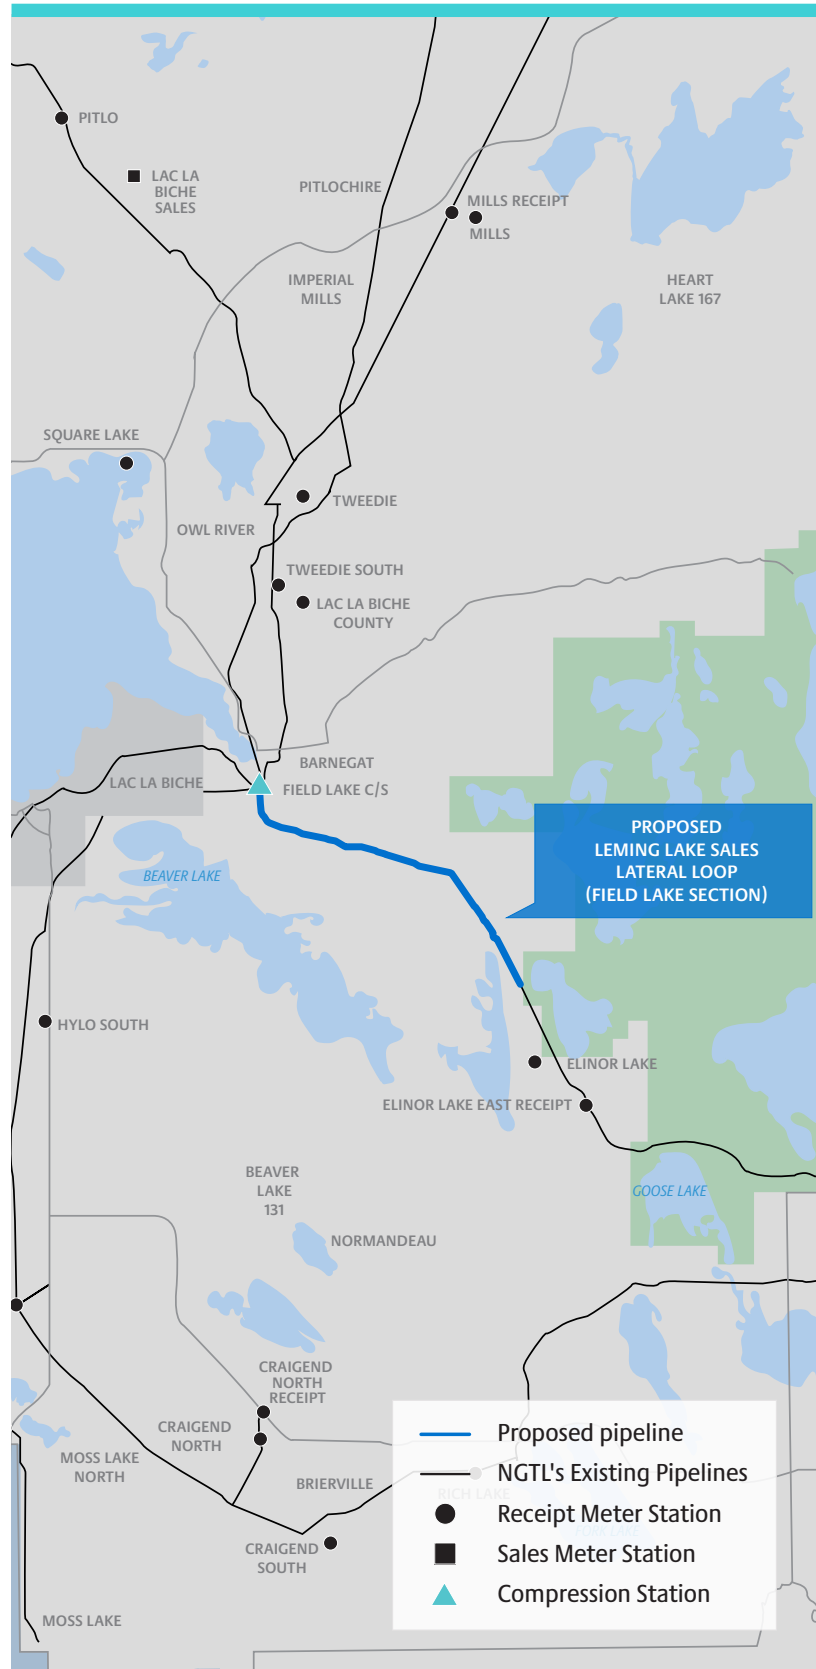

Q2 2023	Engagement Start
Q4 2023	Project Notification Submission to CER
Q1 2024	Section 214 Application Submission to CER
Q4 2025	Mainline Construction Start
Q2 2026	Commercial In-Service

About TC Energy

We’re a team of 7,000+ energy problem solvers working to move, generate and store the energy North America relies on. Today, we’re taking action to make that energy more sustainable and more secure. We’re innovating and modernizing to reduce emissions from our business. And, we’re delivering new energy solutions – from natural gas and renewables to carbon capture and hydrogen – to help other businesses and industries decarbonize too.

TC Energy periodically provides information beginning at the early stages of project development, including prospecting, continuing throughout the life of assets. The information provided is intended to give people the opportunity for meaningful input and inform stakeholders and Indigenous groups of our proposed activities. Please be aware that as planning progresses and new information becomes available, details may change from the time of this printing. TC Energy respects your choice to receive relevant information from us in English or in French. Please contact us if you prefer to receive French-language materials and updates.
