Dear Ms. Wirk,

**NOVA Gas Transmission Ltd. (NGTL) Application for the Sundre Crossover under section 58 of the *National Energy Board Act* (NEB Act)
Application to Participate Deadline Extension**

On 24 March 2017, NGTL applied ([A82246](#)) pursuant to section 58 of the NEB Act and section 45.1 of the *National Energy Board Onshore Pipeline Regulations*, for the construction and operation of the Sundre Crossover (Project).

On 30 June 2017, the Board opened a Comment Process ([A84747](#)) based on concerns raised regarding the Project. The Comment Process remained open until 2 August 2017. After reviewing the submissions received during the Comment Process, the Board issued a Notice of Hearing on this Project ([A85867](#)) on 6 September 2017. The Notice of Hearing outlined additional procedures and included details on the application to participate (ATP) process, which would remain open from 8 September 2017 to 22 September 2017.

While the Board works to process applications as expeditiously as possible, the Board recognizes the need to facilitate full and meaningful opportunities for all persons interested in participating in hearings. Accordingly, the Board has extended the ATP deadline by one week from the date of this letter, to **28 September 2017**. The Board encourages anyone who has Project-related concerns they wish the Board to consider to apply to participate in the hearing process.

Should any persons wish to comment on the impacts this extension may have on their ability to effectively meet the remaining process deadlines outlined in the Notice of Hearing, the Board reminds those persons that comments must be filed with the Board via its online repository system in order for them to be considered.
